

CompTIA A+ / Core 1 and 2 (Seminar)

This online seminar in A+ / Core 1 and 2 leads students through the official CompTIA A+ Certification exam guide culminating in the CompTIA A+ / Core 1 and 2 certification exams. Students will complete a rigorous curriculum that shows students how to install, configure, optimize, troubleshoot, repair, upgrade, and perform preventive maintenance on personal computers, digital devices, and operating systems.

This seminar will be presented exclusively online as an on-demand course that students can complete at their own pace over a span of three months by accessing, reviewing, and completing a blend of video tutorials, labs, and exercises. All the material needed to complete this seminar successfully is available online and made accessible to each enrolled student. Students will be provided a user ID and password to allow them access to view the material in the seminar. The user ID will also be used to track attendance, which is essential for successfully completing this seminar.
